INVESTMENT

Your early support provides the necessary funds for seeds, labor, and farm maintenance in the critical months leading up to harvest. This helps us produce a bountiful yield while also strengthening our sustainable farming practices. By paying upfront, you're not just securing the freshest produce—you're directly investing in the success of our farm and community.

SHARE	COST	WEEKLY	FEEDS
Full Share	\$700	\$39	3-4
2/3 Share	\$500	\$28	2-3

BENEFITS & RISKS

Membership means enjoying the freshest, locally grown produce while directly supporting sustainable farming. You'll experience the best flavors of the season, discover new fruits and vegetables, and connect with where your food comes from. However, farming is dependent on nature—while we plan for a bountiful harvest, weather and other factors can impact crop yields. By joining, you share in both the rewards and the risks of farming, helping us grow together as a community!
